# Approvals, Escalation and Timing

Retail Pricing and Markdown Policy, document 2 of 3, version 1.1

Example policy for the demo project. All amounts are in SEK. Price recommendations are advice to the pricing team; no price is changed automatically.

## 4. Approvals and escalation

### P-4.1 Approval threshold

A markdown of 15% or more needs human approval before the price is changed.

### P-4.2 Clearance in Furniture and Electronics

Applies to: Furniture, Electronics. Any CLEARANCE action in these departments also needs sign-off from the category manager, whatever the size of the markdown.

### P-4.3 REVIEW items

Items labelled REVIEW are not changed until the pricing manager has decided and the decision is recorded.

### P-4.4 Large stock exposure

Any markdown on an item whose stock at cost is above 150,000 SEK must be reported to the finance controller before the price is changed.

## 5. Timing

### P-5.1 Cooldown

No price is changed within 14 days of the previous price change.

### P-5.2 Cooldown exception

CLEARANCE items with more than 200 days in stock may override the cooldown, with approval from the pricing manager.

## 10. Records

### P-10.1 Audit trail

Every run report is committed to the repository. Approvals are recorded with the approver and the date.
